

**Great Clips
Island Lake Retail Center
BJJ Development
Island Lake, Illinois**

Platford Corporation is a General Contracting/Construction Management firm headquartered in Lake County, Illinois. A significant portion of our business is tenant improvement work consisting of remodeling, rehabilitation, and new construction. Since 2000, Platford has completed over 350,000 SF of interior work in Lake, McHenry, Kane, and Dupage County, as well as the City of Chicago. Recently, we have also completed interior projects in Racine County, Wisconsin.

The Great Clips project was completed just 30 days after receiving permit enabling our client to begin collecting rent sooner. Attention to small details, consistent communication with the client, and the ability to perform in brief timeframes, has allowed Platford to consistently provide quality tenant improvement work. This has led to a long history of satisfied clients.
