“We want to thank you and your staff for not only delivering our build-out exactly when promised, but also for the incredibly professional service you provided. Having worked in the “building business” we were a little skeptical when you assured me that our unit would be ready, especially since you only had six weeks from start to finish. We couldn’t have been more pleased with the quality of the unit at the walk-thru. The few items on our punch list were taken care of in a very timely manner. You’ve been so great about answering any questions or problems that have occurred since our taking occupancy.”
