

PLATFORD

C O R P O R A T I O N

**Volo Commerce, L.L.C.
Volo Commerce Center
26575 W. Commerce Drive**

The 32,000 SF multi-tenant, office/warehouse building was constructed in 2003. The building features precast construction with recessed entry areas, 12' x 14' overhead doors, and covered truck docks accessible to all tenants.

“This building was specifically designed for an existing tenant of ours in the business park. This tenant was in need of additional office and storage space. Platford Corporation was very proactive in meeting with our client and establishing his specifications and timelines. Facing many winter elements, Platford successfully met the deadline and most importantly, completed the project under our budget. Our client, and I as an owner, are extremely pleased with the product Platford built for us.”
