Mr. Travis Wiersma  
PLATFORD CORPORATION  
31632 N. Ellis Drive, #213  
Volo, Illinois 60073

Dear Travis:

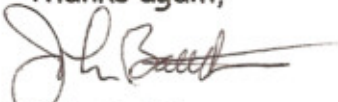

I would like to share with you how pleased I am with the work of Platford Corporation at the Great Clips and Island Lake Physical Therapy Center. I have witnessed first hand the construction and operations of other building contractors and realize now how much you stand out from your competitors.

Travis, I appreciated how quick you were to respond to my questions and concerns. Whether through an email reply or a return phone call, I was able to hear back from you in a timely manner. I also appreciated your thoroughness in reviewing the architectural drawings before submitting your proposal. As the owner, this detailed review resulted in cost savings.

After the proposals were signed, I was impressed with the seamless transition from sales to project management. Kris Merritt, my project superintendent, was very detail oriented and communicated to me quickly with any questions or concerns. Kris ran the two jobs effectively and efficiently. He truly understood the need I had to move my tenants in as fast as possible, without sacrificing quality in the construction.

If you ever need to have a potential client speak to a past client, feel free to have them contact me. I will speak very highly of the people in your organization and the quality construction services that you provide.

Thanks again,

John Balthazor
